

DIN-Rail LED Power Repeater

0...144W-288W 12A 12-24V

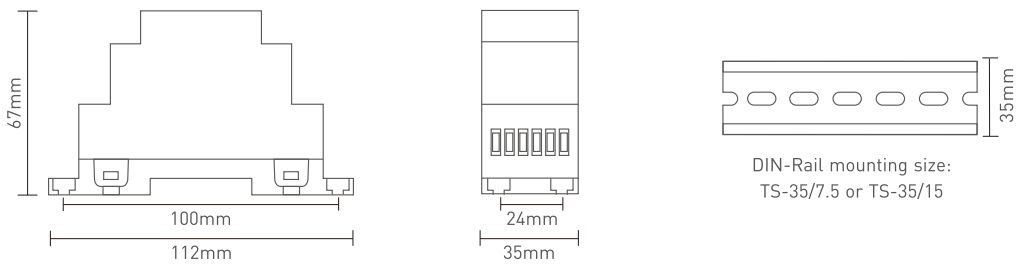

- Accept PWM control.
- LED lights would be twice as much by adding one more power repeater.
- Max. current output: 12A.
- Full protective plastic housing.
- DIN-Rail & Screw dual-use.
- Suitable for indoor environments.

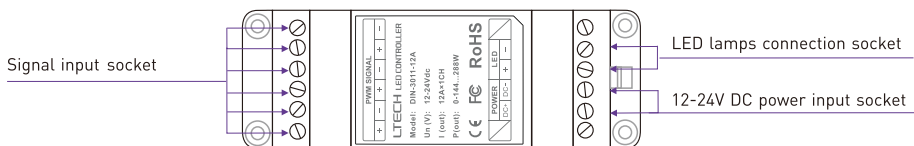

Main Characteristics

Input Signal:	CV/CC PWM	Mounting:	DIN-Rail or Screw
Input Voltage:	12~24V DC	Working Temperature:	-30°C~55°C
Output Voltage:	12~24V DC	Product Size:	L112×W35×H67(mm)
Max. Current Load:	12A×1CH Max. 12A	Package Size:	L114×W37×H70(mm)
Max. Output Power:	0-144W...288W(12V/24V)	Weight(G.W.):	120g

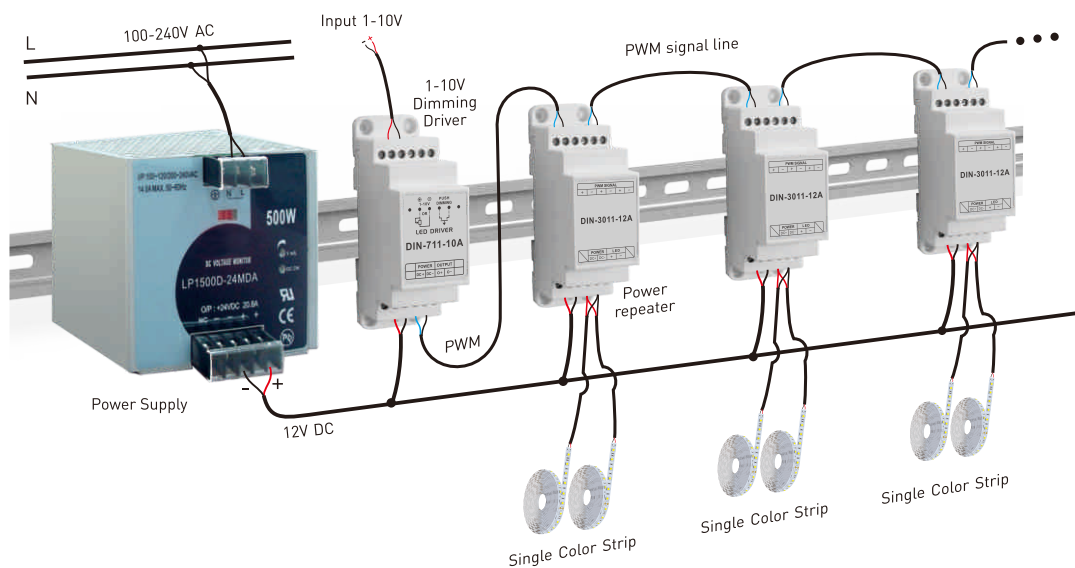

Dimensions

Terminal Description

12V lamp connected, loads 1~144W(12V).

24V lamp connected, loads 1~288W(24V).
